AGED
RICE

Mishtann Foods Limited is a leading agro-product company in India with its preliminary focus on branded basmati rice. We offer pure and fit grains for people of all ages and tastes, across the world. With a broad range of premium basmati rice, our products are found in almost every kitchen, from restaurants to homes.

Our vision is to gratify millions of palates across the globe by encouraging the consumption of Mishtann products.

We envision to enrich the art of gastronomy, thereby spreading happiness that knows no bounds.

Vision

We aim to provide good quality of rice without compromising on quality.

We aim to make Mishtann the most reliable Indian brand in agro-products worldwide.

We aim to create an organisation incorporating the values of integrity and dedication.

Mission

Our objective is to grow our market share with deep market penetration.

Our goal is to maintain a strict control over cost.

Goal

We aim to keep building our brand position, and establish it in the consciousness of millions of consumers.

Last year, we focused on constructing clear marketing goals and objectives, and defining ways to meet them with specific strategies and tactics. Our marketing reach extends globally through active social media engagement and multi-channel campaigns. To enhance the recall value of our brand amongst the consumers, we have placed OOH campaign hoardings in high potential areas. In order to increase our interactions with the consumers, we are engaging with them through multiple social media platforms such as Facebook, LinkedIn and Twitter. Furthermore, we participated in the world's largest annual food and beverage trade show — GulFood — where all our products were displayed to increase the awareness and recognition of our brand.

Integrated Processing Unit

Our business draws major strength from our backend infrastructure, which has been created over a period of years. Our state-of-the-art processing plant, with a capacity of 45 metric tonnes per hour, is designed for manufacturing and processing specialised products. This plant is an end-to-end rice processing facility, which gives us a competitive edge by combining more than one specific process into a single plant. This facilitates faster throughput, cuts down transportation costs and carries out processing and packaging in the same place. We ensure multiple checks for quality, efficiency enhancement and cost reduction at our facility.

Financial Performance

During the year, Mishtann has delivered praiseworthy performance with solid underlying sales growth of 24.3% on like to like basis, to ₹ 4,818.2 million as against ₹ 3,876.1 million during FY2018. The Company reported an EBITDA of ₹ 233.5 million, as against ₹ 133 million during the previous financial year due to lower employee costs and change in inventories. The Net Profit stood at ₹ 118 million as against ₹ 56.1 million, marking an increase of 110.2% YoY.

Growth Outlook

Going forward, we see ourselves on a path of strong growth. We aim to keep building our brand position, and establish it in

the consciousness of millions of consumers. Our processes are being strengthened to align our business with this objective. Our enhanced brand presence will be supported by the robust momentum in the acceptance of our products in India and across the globe.

Looking ahead, the marketplace is filled with opportunities and we are capturing these prospects by investing in products that are appealing to health-conscious discerning consumers. Additionally, we intend to diversify into different food products under the 'Mishtann' brand. We plan to leverage our brand recognition to reach out to consumers with multiple products at different price points. A strong portfolio under a highly recognised brand and growing product acceptance globally, gives us clear visibility and confidence to achieve consistent growth.

We will continue to serve our customers with quality and commitment. These values shall remain the hallmark of all the offerings of Mishtann and will enable us to achieve a long and meaningful relationship with them.

In interest of creating the most value, it is clear that we need to orient our business towards a direction that produces the best possible returns. This objective can only be achieved through a relentless focus on finding the ideal balance between the right products, the right structures, and the right people to execute our plans. I feel that we have made significant progress on all these fronts. Today, our business model has been primed to chase for quality growth.

In closing, I would like to express my sincere gratitude to all our stakeholders for their continued trust and support. We look forward to your support in our journey ahead. I would also like to take this moment to thank our team for their sincerity, passion and commitment.

Sincerely,

Hiteshkumar G. Patel

Managing Director

How did we start?

With its inception in 1992, Mishtann Foods Limited was previously known as Ravi Trading Company started by the Patel family. Till 2000, the company traded in basmati rice with a focus on the domestic market, and primarily B2B sales. Since then, the Company began to grow as a branded basmati rice under the brand name “**Mishtann**”.

Sourcing

We have an established relationship with farmers, mandis and agents. The sourcing of grains happen through a simple 'cash and carry' model. Around 80-85% of the procurement is financed at a concessional rate from the banks. Throughout the process, there are multiple checks to ensure quality control.

Processing

Our processing plant is a modern and completely automated plant with a capacity of 45 MT/hour. In our processing plant, we commit to the protocols for quality, efficiency enhancement and cost reduction.

Packaging

We have a comprehensive integrated packaging and milling facility. The product packaging comes in different quantities ranging between 1 kg, 5 kg, 10 kg and 25 kg. To that end, we also undertake flexible and customised packaging depending on the kind of orders received and demand forecast.

Marketing

Mishtann has a tie-up with more than 15 super stockists. We have a significant presence in the HORECA segment, which is a syllabic abbreviation for Hotels, Restaurants and Café. Consumer Centric Approach

At Mishtann, consumers are at the forefront of everything we do. Having set the standard for quality and taste, we are determined to process products that are healthy and safe. We have a diversified branded basmati rice portfolio, catering to different customers ranging from economical to premium segment. To meet the increasing health preferences of consumers, we are escalating our presence in growing categories such as brown and aged rice.

Strategically Located Manufacturing Facility

Giving us an edge is our well-planned facility. Our advanced and fully automated processing plant located in Himatnagar, Gujarat, has a relatively closer proximity to the port when compared with the peers. This facilitates easy exports of our brand to other countries, thereby increasing the accessibility of Mishtann products in every corner of the globe.

It is our belief that these pillars will offer us unsurpassed opportunities to deliver on our mission to fuse taste, health and happiness, thereby making Mishtann the most reliable Indian brand in agro products around the world.

At Mishtann, we have undergone a profound transformation. From being a bulk rice player in our formative years, we are evolving into a globally recognised, branded specialty foods company. We are on track in our journey to take Mishtann to breach the bastions of global scale. This transmutation is a result of our strong vision, meticulous planning, strategic roadmaps and painstaking execution to fuel profitable growth. Our enterprising strategies have also helped us in attaining brand leadership across target regional markets within India and around the globe. In doing so, we have also strengthened our long-term competitiveness by successfully

widening our portfolio with innovative products, that enjoys both strong consumer loyalty and relative price inelasticity.

We are being seriously recognised by quality institutional investors, who are placing faith in our business model. Our improving financial performance is also contributing to stronger internal accrual generation, further reducing our dependency on debt for funding our business growth. Ultimately, going forward, we expect to see further improvements in our profitability, and in our ability to generate even more free cash flows.

Over the years, we have grown our basmati business with addition of more products to match different price points and cater to tastes of different geographies. This has helped us in meeting regional consumer preferences and widening our marketing share.

We have strategically grown business from our current brand; introduced new line extensions; and augmented our capacities to support our product demand. The focus has been on solidifying our brand value both in India and international markets. Our brand strengthening initiative is driven by consistent brand investments; fortifying the supply chain; and adopting channel wise strategy to strengthen our footprint in all the channels.

We understand that interacting with customers is one of the profound activities to build trust and loyalty, while always staying connected to them.

At Mishtann, we have persistently invested in promoting our products with the purpose of associating with our consumers and widening our presence across different parts of the world. Being a basmati rice company, we have always been a consumer-centric brand. Our focus has continuously remained on ensuring that only the best rice grains, which are distinct in aroma and taste, are chosen.

To enhance our reach and to find a place in the kitchen of every home, we have leveraged on our marketing and branding capabilities. Accordingly, we have placed Out-Of-Home (OOH) hoardings in the areas of high potential to spread awareness of our brand. We understand that interacting with customers is one of the profound activities to build trust and loyalty, while always staying connected to them. Consequently, we engage with our consumers on active social media platforms and constantly keep them in touch with the launch of our new products and initiatives. In the era of speedily evolving consumer tastes and preferences, exhibitions and trade shows are a good place to meet and communicate with numerous people. To capitalise on this opportunity, we participated in GulFood Exhibition-

2020 in Dubai, which is the largest annual food and beverage trade show in the world. To promote Mishtann, we displayed our wide products in this exhibition and connected with a number of consumers. By this, we have continuously worked on reaching and catering to a variety of consumers across the globe.

Through our marketing and branding initiatives, we are flourishing towards our vision to gratify millions of palates in different corners of the world by encouraging consumers to choose Mishtann products, thereby delivering health through every grain of our rice.

As an emerging global food company, we cemented our position across all the geographies of our presence globally, including India, Middle East, UK, Europe and the US.

ECONOMIC REVIEW

The global economy was a mixed bag in Calendar Year (CY) 2019. It experienced a major slowdown in 2019 and recession fears became prevalent towards the end of the year. The coronavirus eruption is having a severe impact on global economic activity amidst considerable uncertainty. The governments and central banks across the world have announced a host of fiscal and monetary policy measures to revive the economy. Despite the concerted efforts, the global economy is projected to contract sharply by (3%) in 2020. (Source: International Monetary Fund (IMF)) According to the IMF, the global economy is projected to grow by 5.8% in 2021 as economic activity normalises, helped by policy support. A lot depends on the epidemiology of the virus, the effectiveness of control measures, and the development of therapeutics and vaccines, all of which are difficult to envisage as of today.

Indian Economy

In India, growth softened in 2019 as economic and regulatory uncertainty, together with concerns about the health of the non-banking financial sector, weighed on demand. There was a strong hope of recovery in the last quarter of the current fiscal. However, the new coronavirus epidemic has made this recovery extremely difficult in the near to medium term. The GDP growth for FY 2020 came in at 4.2%, against 6.1% in FY 2019. The IMF lauded India's efforts in using digital technologies to directly deliver the benefits to its citizens. The Reserve Bank of India (RBI) also sprang into action, cutting policy rates, and announced measures to stabilise the system.

Weaker growth is likely to be experienced across developed and emerging economies of the world, given COVID-19 induced disruptions and associated value chain impacts. There is also a high probability of recession in many countries. Repeated lockdowns and consequent production shutdowns are highly impacting several sectors and resulting in job losses. The recovery across economies is expected to be gradual, fragile and susceptible to multiple headwinds.

To revive the economy, the Prime Minister announced a Rs. 20 lakh crore package. The package is specifically targeted at reviving businesses, enhancing liquidity in the economy and driving consumption. The Government of India has also rolled out multiple sector-specific measures to energise the economy and help businesses and citizens the government's "Atmanirbharata Mission" also aims at reducing dependence on imports, strengthen indigenous skills and entrepreneurship and stabilise local supply chains. These initiatives are expected to augur well for all businesses going forward.

Emerging Economies

The emerging economies are likely to face a contraction in 2020 due to structural impediments and low confidence of consumers and investors, which was further exacerbated by the COVID-19 impact. The Economist Intelligence Unit (EIU) has revised down Bangladesh's economic growth forecast for FY 2020 to less than 4%, from 7.5% due to the outbreak of COVID-19. ICRA Lanka Limited expects the Sri Lankan economy to face a recession of 1.9% in 2020 and take a U-

shape recovery path, returning to its pre-crisis level by Q1 of 2021.

INDUSTRY REVIEW GLOBAL MARKET OUTLOOK FOR RICE

Prospects for Japanese Rice:

Over the years Japan has been dependent upon the domestic production of rice instead of importing, but in past few years along with the exports, an increase in imports has been analyzed. The system known as gentan, which was designed to protect farmers from fluctuating prices, now has deteriorated the Japan agriculture sector, where the landowners pocket the government subsidy and keeping the fields left idle. On an average per person, rice consumption has fell down by 38.0% over the past decade owing to decreasing rice supply and growing preference for wheat and meat food. As per the government, gentan system was expected to be ruled out by 2018 that will bring out structural changes in the agricultural industry. The technological advancement in Japan has led to heavy use of drones in spraying rice paddies. Also insect-detecting drones are under development to be used against white-backed plant-hoppers, an insect harmful to rice fields. Japan recorded 28.0% growth in rice exports and is expected to continue its growth rate backed by the technology adaptation and roll out of gentan system.

Prospects for Chinese Rice:

China is expected to have largest year ending rice stock all over the world, estimated to be around 75.7 million tons. China consists of 30 million hectare land area under rice cultivation which as compared to India stands at second position, but the use of advanced agriculture equipment and better irrigation facilities has led China to remain at highest rice producing country. Also China accounts for being the largest consumer of rice. It accounts for around 30% consumption of globally produced rice. China is also one of the major producers of hybrid rice. Per hectare hybrid rice production dropped on account of flood occurrences but also there has been notable increase in land area producing hybrid rice. Thus the value of hybrid rice produced remains same. China is expected to suffer from over stock of hybrid rice, estimated to be around 120 million kg due to declining domestic demand and lower value of exports as compared to total hybrid rice seed supply.

Prospects for Cambodian Rice:

Cambodia is one of the major producers and exporter of rice. With the lack of warehouses, processing facilities and logistics around 80% of the surplus rice produced is exported to neighboring countries. Of the total requirement, Cambodia produces 5 million tons rice in surplus. The exports are expected to grow by 15% per annum. China held the largest share among the export countries of Cambodia, supplying majorly the aromatic rice variety. European market would remain stable in 2020 in terms of importing rice from Cambodia. With India, Thailand and Vietnam being the major competitors, Cambodia is now forced develop profitable alternatives such as advanced irrigation technologies, infrastructure development, smart techniques to maintain soil and land fertility and cost effective agricultural strategies.

Prospects for Indonesian Rice:

Indonesia is third largest producer of rice and one of the top importers due to use of non-optimal farming techniques by the farmers that result in limited supply of rice, combined with huge rice consumption by massive population, approx 150 kg. Indonesia imports rice mainly from Thailand, Vietnam and India. Rice imported from Vietnam is of premium quality, and Indonesia produces only medium quality rice. In 2020, it is expected to import 500,000 tons rice from Vietnam. In order to become rice selfsufficient country, government steps up by providing subsidized fertilizer and stimulating for the use of advanced technology, and through campaigns promoting the other staple crops to reduce rice consumption such as 'one day without rice' (each week) campaign.

Prospects for United States Rice:

U.S. is major exporter of rice, majorly to Mexico, Northeast Asia, Central America, the Caribbean, Canada, the Middle East, the European Union, and Sub-Saharan Africa. Asian aromatic rice such as Basmati and Jasmine rice are majorly imported by the U.S.A. United States accounts 2% of global rice production and 10% of global exports. Major exported rice varieties are rough rice, brown rice, parboiled rice and fully milled rice. There are 1000 varieties of rice produced worldwide and 20 types of rice are commercially produced in U.S., majorly in states of Texas, Arkansas, Mississippi, California, Louisiana and Missouri. U.S. rice exported is regulated by the agreements between The World Trade Organization (WTO) and the North American Free Trade Agreement (NAFTA), and thus it has resulted in spurring rice

exports from the United States.

Prospects for Vietnam Rice:

Vietnam is third largest exporter of rice and by 2020 the total exports are expected to reach 7 million tons on account of growing rice demand from Southeast Asia, majorly from Philippines. Over the past decade Vietnam has increased its rice productivity and profitability and significantly reducing poverty. Government is seen to shift its focus from reducing the poverty towards emphasis on technology usage to eliminate labor intensive farming and thus impacting the growth in productivity of the farmers. The consumption of rice is growing at steady rate as per the slow population growth rate, having domestic milled rice demand estimated to be nearly 2 million tons annually. Vietnam has poor climate condition in months of winter-spring, but the months of May-June are most suitable for cultivation of rice. Thus Indica rice variety demand produced in Vietnam spur up, boosting the exports of rice.

Prospects for Singapore Rice:

Singapore had 347,000 metric tons consumption of rice, which was completely imported from Vietnam, Thailand and India. For many decades Thailand had been major exporter of rice to Singapore but since 2013 India overtook Thailand. Singapore imports jasmine rice, Vietnamese rice and many others, but Vietnamese rice pose greater competition to supply of other varieties of rice in Singapore due to the use of advanced technology in its production that beats the Singapore standards. Singaporeans do not have high demand for rice, they prefer various other dishes. The tourists in Singapore with distinct taste and preference are the major consumers of rice. Therefore the growth in Singapore travel and tourism industry and food services industry are majorly driving the growth of Singapore rice industry. Additionally, in recent years the street eateries and restaurants have begun to buy rice, a price efficient alternative to sustain in the era of rising prices, is another factor inducing the demand for rice in Singapore.

OPPORTUNITY FOR INDIAN BASMATI RICE EXPORTS

CHINA: China is relatively new market for Indian exporters, despite of this China has already inspected & cleared 5 additional rice mills in India (from the previous 19) for exporting non-basmati rice & the phytosanitary measures have also been updated to include such exports. If India can continue to prevent pests from infecting, especially the khapra beetle for basmati rice, this can prove to be profitable as well as new routes for basmati also in the long run.

JAPAN: Downward adjustment in this region makes it possible export market.

MYANMAR: Improper usage of fertilizers, insufficient irrigation & lack of good infrastructure is affecting Myanmar exports of rice, that too of low quality. Also, it has faced severe backlash from the African market due to the same reason of low quality. This might prove to be an advantage for India in terms of utilizing the African market for trading both rice varieties.

UNITED ARAB EMIRATES: Many trading scams have happened with UAE or Dubai as the base of operations, some very recently (like the Al Rawnaq Al Thahbhi General Trading LLC), and hence its credibility is at risk. However, India needs to be extremely cautious too while accepting orders. As UAE is already starting to grow seawater rice varieties, a proper and significant rebranding of Basmati rice in this region is the

only way to sustain imports of at least this variety

IVORY COAST: Demand in Ivory Coast is expected to increase due to growing consumer class of people, seasonal variability of rains having affected crop plantations as well as decrease in arable land. Also, matching the low local prices via nonbasmati varieties can help in maintaining an export channel, but India must be aware of China succeeding the price war for non-basmati as well as restructuring of rice cultivation system in Ivory Coast.

YEMEN: Political conflicts & pests have affected crop production, especially due to high prices of fertilizers & seeds. This could be a good opportunity to market lowpriced varieties of non-basmati rice, especially to help the impoverished people living without employment due to the unrest.

SAUDI ARABIA: As water is scarce & rice is water intensive, it is not being cultivated in that region. Moreover, Saudi Arabia is encouraging for abroad investments to import rice and other food crops, representing an opportunity to tap into these investment offers.

CANADA: Growing of a cold-resistant variety is only in the trial stages, and growing rice is still an issue due to high infrastructure costs, hence our differentiation via 8-digit or higher HS Codes should help India stay safe of competition and in continued demand.

CHALLENGES

Availability of quality manpower, high attrition rate and administration costs, inadequate supply chain, infrastructure, over-licensing, etc., are some of the key challenges faced by various players in the food industry. It is, therefore, imperative for companies to focus on improving operational efficiencies, getting their unit economics right and ensuring scalability of the business. After the COVID-19 situation, people will be more while choosing. So, it is important for businesses to a showcase and practice high standards of food safety.

SWOT Analysis

Strengths

- India, the largest producer of Rice in the world,
- is self-reliant
- The country is endowed with rich arable land
- The industry uplifts rural communities

Weaknesses

- The technology is obsolete; most factories are more than 40 years old
- Country is highly dependent on monsoonal rainfall
- Opportunities
- On the back of a rising population and increased downstream demand, the demand for Rice in India is increasing

Threats

The dependence of the Rice industry on rainfall, cultivated area and transportation cost affects prices country, government steps up by providing subsidized fertilizer and stimulating for the use of advanced technology, and through campaigns promoting the other staple crops to reduce rice consumption such as 'one day without rice' (each week) campaign.

Revenue

Indian overall rice market is forecasted to grow at CAGR of above 6% in the near future.

India is among the highest consumer of the rice just after China in terms of both value as well as volume also India the top rice exporting nation globally.

The Indian rice market is divided into organised as well as unorganised sector. The unorganised sector contributes a massive part in Indian rice market since ages as people used to buy rice in large quantity because of its higher consumption. Indian rice sector is getting transformed slowly and gradually from unorganised to organised sector which is also called a packed rice segment.

The packed segment of rice is a growing sector in India with an increase in awareness and the increase in urbanisation. Overall Indian rice market is segmented in basmati, non-

basmati, packed, unpacked and further segmented into its types. Basmati rice contributes a small portion in Indian market but generates the highest share through overall export of rice. Rice sector is a competitive market in India; there are many vital players; also, they are getting fierce competition from the new entrants and the local players.

Indian overall and packaged rice market have grown considerably over the past couple of years. India is among the largest producers and the exporters of rice globally.

A vast section of people living in India belongs to Tier 2 and Tier 3, which are the largest consumer of unpacked rice that helps in driving the unorganised rice market in India. In the last few years, a shift towards urbanization has increased, and the size of the families is getting smaller, which have allowed them to move towards the packed rice products.

The adaption of packed rice has increased in recent years, and basmati rice holds more substantial portion in the overall packed rice. The whole packaged rice market is driven by the revenue generated by packed basmati rice which is forecasted to grow at considerable CAGR of around 11%.

With the changing trends, there is a shift in the habit in the consumption of rice as consumers are now moving towards health rice segments because of increased awareness about health products. Brown rice and organic rice are considered into the health rice segment because of its nutritive content, and also the recent entry of black rice is gaining consumer's confidence.

Revenue in the Rice segment amounts to US\$52,836m in 2020. The market is expected to grow annually by 6.5% (CAGR 2020-2025).

In global comparison, most revenue is generated in China (US\$131,610m in 2020).

In relation to total population figures, per person revenues of US\$38.29 are generated in 2020.

The average per capita consumption stands at 73.7 kg in 2020.

KEY HIGHLIGHTS OF APEDA REPORTS

- The rice market is projected to register a CAGR of 0.88% during the period 2019-2024.
- The biggest export market for Indian basmati rice remains uncertain. Iran may not start importing from India this year until a political resolution is in place. Since US economic sanctions on Iran, India stopped importing crude oil from Iran.
- In 2020, price of the Indian long grain high quality white rice expected to be lower than Vietnam rice.
- Export of rice (except seed quality and other rice in husk) is free, subject to condition circulated by DGFT. Import of seeds is restricted. Whereas, import of rice for human consumption is permitted through State Trading Enterprises.
- Pakistan is all set to improve its trade relations with Iran. The recent visit of the parliamentary delegation of Pakistan to Iran discussed increase of trade between both the countries to its true potential. As a result, Iran bought around 20,000 tons of rice from Pakistan.
- On the basis of rice variety, japonica rice accounted for largest market share in with 87.2% of total rice production. Over the forecast period japonica rice is expected to continue their dominance in the rice production. Further, imports of aromatic rice have increased the market share and are expected to grow at a CAGR of 1.8%.
- Indonesia:- Downward adjustment in production due to conditions being favourable for dry-season rice rather than wet-season (which is Indian rice's season) provide opportunity for us to export off-season.
- Philippines:- Recent lift of import quotas as well as strong domestic demand shows good opportunity for India to export here, however the Rice Tariffication Law might provide some hindrance, which can be prevented by 8-digit and above specification.
- Japan:- Downward adjustment in this region make it possible export market
- Islamic Republic of Iran:- Recent floods have downgraded the harvest output, signaling afresh need for imports in order to refill stocks, thereby providing an opportunity.

GLOBAL DOMINANCE OF RICE AS STAPLE FOOD

The rice market is projected to register a CAGR of 0.88% during the forecast period (2019- 2024). Rice is the staple food of more than half of the world population, with more than 700 million metric ton produced annually at a global level. Most of the rice is grown and consumed in the Asian region, from Pakistan in the west to Japan in the east. Rice is the second-most important cereal crop after maize in the world. It is a crop that ensures food security in many of the developing countries of the East Asia and the Southeast Asia regions. Therefore, rice being the most consumed cereal grain globally, the growth of the rice market is expected to increase.

GLOBAL CONSUMPTION OF RICE HAS SHOWN CONSTANT INCREASE

Total rice consumption world wide from 2008/2009 to 2019/2020 (in 1000 metric tons)

Global consumption of rice has seen a slight increase over the last several years. In the 2018/2019 crop year, about 490.27 million metric tons of rice was consumed worldwide, up from 437.18 million metric tons in the 2008/2009 crop year.

The size of the global rice industry is approximately US\$275 billion, of which, Basmati industry accounts for US\$5.8 billion (2.1%). Global Basmati Rice consumption market is led by Middle East and Middle East is the largest region consumption market, accounting for about 27.08% of global

consumption of Basmati Rice.

India accounts for around 72% of Basmati rice produced, 28% Basmati Rice coming from Indian origin has been able 76.57% of Basmati Rice market as against Pakistani and Kenyan Basmati rice.

The worldwide market for basmati rice is anticipated to rise to US\$17.74 bn by 2022, proliferating at a robust CAGR of 11.0% during the period from 2017 to 2022. In 2023 the consumption of Basmati Rice is estimated to be 17613.7.9 K MT.

- (ii) The Listing Agreements entered into by the Company with Bombay Stock Exchange Limited and the Metropolitan Stock Exchange of India Limited (MSEIL), the provisions of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015

During the period under review the Company has complied with the provision of the Act, Rules, Regulations, Guidelines, Standards, etc. mentioned above, subject to our observations as under:

I further emphasize that

- The board of directors of the company is duly constituted with proper balance of executive directors, non - executives directors, independent directors and woman director. **EXCEPT the fact that As per Listed by BSE based on Market Capitalization the company was coming within the top 500 Companies. Accordingly, the Company must have at least 6 Directors, but it had only 5 Directors but in the meantime as soon as the Company was aware about the same then sixth director was appointed to comply the same.**

The changes in the composition of the board of directors that took place during the period under review were carried out in compliance with the provisions of the act and duly intimated to the stock exchanges.

- Further the Company has resolved only 2 Investor Complaints as on 31st March 2020 during the year. However, yet 32 Investor Complaints are still pending for resolution.

Adequate notice is given to all directors to schedule the board meetings, agenda and detailed notes on agenda were sent at least seven days in advance or with consent of directors at a shorter notice, and a system exists for seeking and obtaining further information and clarification on the agenda items before the meeting and for meaningful participation at the meeting. Majority decision is carried through while the dissenting members' views, if any, are captured and recorded as part of the minutes.

I further report that there are adequate systems and processes in the company commensurate with the size and operations of the company to monitor and ensure compliances with applicable laws, rules, regulations and guidelines.

I further report that during the audit period, in the company there has not occurred any specific event / action that can have a bearing on the company's compliance responsibilities in pursuance of the above referred laws, rules, regulations, guideline, standards, etc.

For and on behalf of the Board

foreseeable losses, if any on long-term contracts including derivative contracts.

- (iii) There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.

3. As informed by the management of the company the PROFITS for the financial year 2019-2020 reduced due to the below mentioned reasons:-

- a) Due to the current pandemic of Covid-19, markets got disturbed. Though our product falls in essential goods but still sales were effected and even at time we have to sell on net cost or even at below par rates foregoing the profit in order to empty the stock and infuse payment.
- b) India country faced complete Lockdown initially from 22nd March where human movements were strictly prohibited so no sales were possible during such period and also when relaxation were provided to essential commodities, still we faced transportation issues causing delay in activities.
- c) Iran being one of our top buyer / importer country. Corona outbreak has applied breaks on exports to such countries.
- d) Similarly in other gulf countries exports through others entities were halted for a certain period due to Covid-19.
- e) The Refinery Blast in Saudi Arabia in the month of January'2020 has affected the trade of our customer entities with the middle east countries resulting into sudden breaks in exports with these countries.

The Company has tried their best to continuously make movement of their products during this tough period keeping aside the profit, thinking the needy gets commodity in time at considerable rates.

ANNEXURE B : TO THE AUDITOR'S REPORT

REFERRED TO IN PARAGRAPH 11 (f) OF OUR REPORT OF EVEN DATE

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **MISHTANN FOODS LIMITED (CIN: L15400GJ1981PLC004170)** ("the Company") as of 31 March 2020 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and,

both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that

- (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with

authorizations of management and directors of the company; and

(3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2020, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

2. SIGNIFICANT ACCOUNTING POLICIES

A. BASIS OF ACCOUNTING:

- The financial statements have been prepared in accordance with Indian Accounting Standards (Ind AS), under the historical cost convention on accrual basis, the provisions of the companies Act, 2013 ("the Act") (to the extent notified) and guidelines issued by the securities and Exchange Board of India (SEBI), The Ind AS are prescribed under Section 133 of the Act read with Rule 3 of the companies Indian Accounting Standards) Rule 2015 and relevant amendment rules issued thereafter.
- Effective April 1, 2017, the Company has adopted all the Ind AS standards and the adoption was carried out in accordance with Ind AS 101 First time adoption of Indian Accounting Standards, with April 1, 2016 as the transition date. The transition was carried out from Indian Accounting Principles generally accepted in India as prescribed under section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014 (IGAAP), which was the previous GAAP.

B. USE OF ESTIMATES:

The preparation of the Financial Statements in conformity with Generally Accepted Accounting Principles requires the Management to make estimates and assumptions considered in the reported amounts of assets and liabilities (including contingent liabilities) and the reported amounts of income and expenditure during the period. The Management believes that the estimates used in preparation of the Financial Statements are prudent and reasonable. Future results could differ due to these estimates and the differences between the actual results and the estimates are recognized in the period in which the results are known/ materialized.

C. Dividend:

Final dividends on shares are recorded as liability on the date of approval by the shareholders and interim dividends are recorded as liability on the date of declaration by the company board of directors.

The company declared and pay dividends in Indian rupees is subject to applicable distribution of taxes.

The Board of Directors recommended a final dividend of 0.1% per equity share for the financial year ended March 31, 2020. The payment is subject to the approval of the shareholders in the ensuing Annual General Meeting of the Company and if approved would result in a cash outflow of approximately Rs. 5,00,000/-, including dividend distribution tax.

G. BORROWING COST AND FINANCE CHARGES:

Borrowing costs directly attributable to the acquisition or construction of an asset that necessarily takes a substantial period of time to get ready for its intended use are capitalized as part of the cost of the asset until such time that the assets are substantially ready for their intended use. Capitalization of borrowing costs is suspended and charged to profit and loss during the extended periods when the active development on the qualifying assets is interrupted. Qualifying fixed asset is an asset that necessarily takes a substantial period of time to get ready for their intended use or sale. All other borrowing costs are charged to statement of Profit and Loss over the tenure of the borrowing.

H. INVENTORIES:

Inventories are valued at lower of cost and net realizable value after providing for obsolescence and other losses, where considered necessary.

I. REVENUE RECOGNITION:

Revenue is recognized to the extent it is probable that the economic benefits will flow to the company and the revenue

can be reliably measured, regardless of when the payment is being made. Revenue is measured at the fair value of the consideration received or receivable, taking into account contractually defined terms of payment and excluding taxes or duty. The Company assesses its revenue arrangements against specific criteria to determine if it is acting as principle or agent. The company has concluded that it is acting as a principal in all of its revenue arrangements.

J. TAXATION:

Taxes on Income are accounted in the same period to which the revenue and expenses relate. Provision for current income tax is made on the basis of estimated taxable income, in accordance with the provisions of the Income Tax Act, 1961 and rules framed thereunder. Deferred tax is the tax effect of timing difference. The timing differences are differences between the taxable income and accounting Income for a period that originate in one period and are capable of reversal in one or more subsequent periods.

MAT credit is recognized as an asset only when and to the extent there is convincing evidence that the Company will pay normal income tax during the specified period.
